## **San Francisco Bay**

*James E. Cloern*

U. S. Geological Survey – Menlo Park, CA, USA

### **Websites:**

<http://sfbay.wr.usgs.gov/> [master website for USGS research on San Francisco Bay, with links to other websites related to San Francisco Bay and its watershed]

### **Books and Edited Volumes:**

Conomos, T. J. [ed.]. 1979. San Francisco Bay: the Urbanized Estuary. Pacific Division, American Association for the Advancement of Science, San Francisco.

Cloern, J.E. and F.H. Nichols [eds.]. 1985. Temporal Dynamics of an Estuary: San Francisco Bay. Kluwer Academic Publishers, Dordrecht [also published as volume 129 of *Hydrobiologia*]

Hollibaugh, J. T. [ed.]. 1996. San Francisco Bay: The ecosystem. Further investigations into the natural history of San Francisco Bay and delta with reference to the influence of man. Pacific Division, American Association for the Advancement of Science, San Francisco.

Van Geen, A. and S.N. Luoma, S.N. [eds.]. 1999. Sediments of San Francisco Bay. Special Issue of *Marine Chemistry*, v. 64, nos. 1&2.

### **Selected Journal Articles:**

Alpine, A.E., and Cloern, J.E., 1992, Trophic interactions and direct physical effects control phytoplankton biomass and production in an estuary: *Limnology and Oceanography*, v. 37, p. 946-955.

Bennett, W.A., D.J. Ostrach, and D.E. Hinton. 1995. Condition of larval striped bass in a drought- stricken estuary: evaluating pelagic food web limitation. *Ecological Applications* 5: 680-692.

Brown, C.L. and S.N. Luoma. 1995. Use of the euryhaline bivalve *Potamocorbula amurensis* as a biosentinel species to assess trace element contamination in San Francisco Bay. *Mar. Ecol. Prog. Ser.* V. 124, p. 129-142.

Caffrey, J.M., C. Grenz, and J.E. Cloern, 1998. Changes in production and respiration during a spring phytoplankton bloom in San Francisco Bay, California: implications for net ecosystem metabolism. *Marine Ecology Progress Series*, v. 172, pp. 1-12

Canuel, E.A., Cloern, J.E., Ringelberg, D.B., Guckert, J.B., and Rau, G.H., 1995, Molecular and isotopic tracers used to examine sources of organic matter and its incorporation into the food webs of San Francisco Bay: *Limnology and Oceanography*, v. 40, p. 67-81.

Carlton, J.T., Thompson, J.K., Schemel, L.E., and Nichols, F.H., 1990, The remarkable invasion of San Francisco Bay (California, USA) by the Asian clam *Potamocorbula amurensis* I, Introduction and dispersal: *Marine Ecology Progress Series*, v. 66, p. 81-94.
